Employment

Project Manager

Gyumri

BAL LAB • Full-time | Jan 2022 – May 2023

I was responsible for managing and delivering successful projects for a variety of clients across industries. My responsibilities included defining project scope, developing project plans and timelines, coordinating cross-functional teams, and ensuring that projects were delivered on time, within scope, and within budget.

Project Coordinator

Regions

Business Development Group • Part-time | Aug 2022 – Jul 2023

In my role I was, in charge of overseeing and organizing training programs for students, in regions.

My tasks involved assessing the training requirements creating materials coordinating the logistics of the training sessions and offering assistance to the students during the program.

UI/UX Designer / Developer

Remote

Self-employment • Freelance | Jan 2021 – Present

As a freelance designer specializing in the user interface and experience I have demonstrated skills, in designing web and mobile interfaces. Throughout my career I have successfully enhanced user engagement by creating designs. Additionally I have conducted research to make data driven decisions and collaborated seamlessly with development teams.

Managing projects simultaneously I always prioritize aligning them with business objectives and meeting deadlines. My expertise lies in creating wireframes designing user flows developing prototypes and delivering user experiences.

Backend Developer

Remote

aloalo • Part-time | Jun 2024 – Present

As a Back-End Engineer for an eSIM-selling mobile application, I am responsible for designing and developing the backend infrastructure from scratch. I am architecting and implementing the entire back-end system using Go, ensuring scalability, performance, and security.

International Experience

Social Impact Award

Novi Sad, Serbia

I participated and emerged victorious at Social Impact Award 2023. Represented our innovative sustainable travel project at the prestigious SIA Summit 2023 in Serbia.
